FORWARD WITH PURPOSE

Our mission at ODIN Works isn't just to create AR-15 parts and accessories but to help create a customized rifle or pistol specifically for YOU. We design and manufacture our products using the best high-tech equipment and finest materials, then finish them with the highest quality, longest-lasting coating available.

The saying "imitation is the sincerest form of flattery" is proving true with our innovative ODIN Works products. The flood of copycat products from the American and Chinese markets shows we are leading the industry. We are proud to say our products are designed and manufactured in Boise, Idaho.

For every 1,000 ideas, maybe 10 are worth prototyping, and of those, one is worth bringing to market. This is our promise - always bring the best products to the market.

NEW IN 2023

NEW! ODIN WORKS BIPOD

We've developed a bipod that is quickly adjustable and aesthetically unique, with interchangeable feet. This will be your go-to bipod when quick interchange of positioning is needed. Available for acra and soon to be available for picatinny.

NEW! FOREND SUPPORT PACKAGE

We've developed an Arca clamp and plate, keeping your support bag secure. Perfect for dynamic competition shooting.

NEW! XGMR 3

The next generation XGMR, designed to work with Aero Precision lowers.

NEW! LEX 5.56 SUPPRESSOR

Available in both direct thread and quick disconnect options, the LEX 5.56 geared towards law enforcement, and features reduced blow back and a matte black finish.

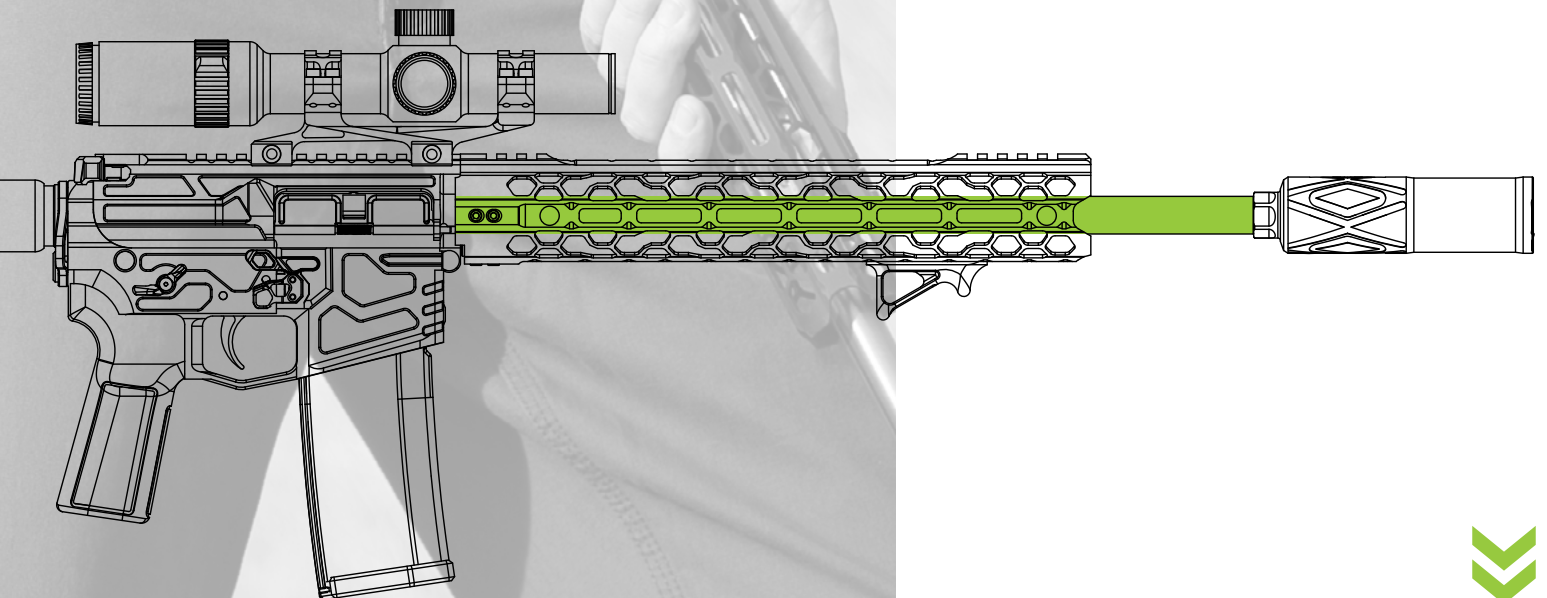

NEW! AR-15 & AR-10 VISE BLOCK

Our previous AR-15 & AR-10 Combo Vise Block now has the ability to mount AR-15 and AR-10 lowers with the help of our new lower vise block (sold separately). We will be releasing a AR-9 lower vise block to the market very soon!

COMING SOON!

BARRELS

- Match grade barrels
- Every barrel is made from 416 stainless
- 1" MOA guarantee on most barrels
- Most popular barrels are available in black nitride
- All barrels have muzzle threads
- Every barrel comes with a gas block
- Barrels available in AR-15, AR-10, and AR-9 platforms
